

Saxon Packaging

QUALITY, ENVIRONMENTAL & HYGIENE POLICY

At Saxon Packaging our vision is to lead the way as an independent corrugated packaging manufacturer providing an overall quality driven packaging solution that other manufacturers aspire to.

Saxon Packaging's integrated Quality, Environmental and Hygiene policy is to achieve sustained, profitable growth by:

- Providing products that consistently satisfy and exceed the needs and expectations of its customers
- Minimising our adverse effect on the environment and to, where ever possible, seek to develop processes of work which provide a positive contribution to our immediate environment, the wider global environment and the environment of the future
- Providing a safe, hygienic and legal product for our customers

This commitment is achieved through the adoption and application of an integrated management system, based on the requirements of BS EN ISO9001, IS014001 and BRC Global Standard – For Packaging and Packaging Materials Standards – High Hygiene Risk and reflects the competence of the Company to existing customers, potential customers, and independent auditing authorities.

Compliance to the integrated management system and hence quality, the environment and hygiene is the responsibility of all staff, however the authority of the system lies with the Managing Director with the support of Senior Management.

The planning and continual improvement of the organisation is monitored and reviewed through formal internal audits, the setting of quality, environmental and hygiene objectives and a formal management meeting attended by senior management. This ensures:

- That the management system continues to be suitable and effective and is complied with at all times
- The identification and implementation of opportunities for improvement throughout the company and the management system

The company ensures that all matters relating to the management system are communicated and understood throughout the organisation at all times. This Policy is available to any interested party on request.
